

WORKSHOP & STORES CABIN

The Workshop and Stores Cabin is designed to provide facilities for personnel to maintain Remotely Operated Vehicles (ROVs) along with storage space for spares and tooling.

The cabin is non-pressurised and accessed via double doors or an optional personnel door. It is fitted out with a heavy duty workbench and storage cage. The layout of the interior can be designed by the in-house team to fully meet client specifications. It is available in 10ft, 16ft and 20ft versions as standard, other options available upon request.

Outreach Offshore Ltd provide Launch and Recovery Systems (LARS) that feature a combined umbilical winch and overboarding system on a base frame. Our LARS are designed specifically for deploying and recovering tethered powered objects, such as: towed arrays, ROVs or any other underwater vehicles.

SPECIFICATIONS (standard sizes: 10 / 16 / 20ft)

Outside Dimensions (mm):	2,991 (L) x 2,438 (W) x 2,743 (H)
Outside Dimensions (ft):	10 (L) 8 (W) x 9 (H)
Max. Gross Weight (kgs):	10,000
Launch SWL (kgs):	N/A
Outreach (m):	N/A
Operating Conditions:	N/A
Power Requirements:	380-460V AC 3Ph 50/60Hz
Rating Options:	Safe Area or Zone 2 ATEX
Design Temperature:	-20°C to +50°C
Certification:	SOLAS A60 compliant, DNV 2.7-1, BS EN 12079
